DEPARTMENT OF AIDS

ASSIGNMENT – 4

1. Differentiate between object, block, and file storage with AWS examples.
2. Explain Amazon S3 storage classes and their use cases.
3. What is Amazon EBS and how do you create and attach an EBS volume to an EC2 instance?
4. Describe the role of Amazon EFS in shared file storage.
5. Provide steps to host a static website using Amazon S3.
6. Compare S3 and EBS in terms of performance, use cases, and pricing.
