

PARUL INSTITUTE OF ENGINEERING AND TECHNOLOGY

FACULTY OF ENGINEERING & TECHNOLOGY

DEPARTMENT OF AIDS

ASSIGNMENT – 6

1. Explain AWS IAM. How do users, groups, roles, and policies function?
2. Write an IAM policy to grant read-only access to S3 buckets.
3. How does AWS CloudWatch help in monitoring AWS resources?
4. Explain how Auto Scaling works with Elastic Load Balancing to manage traffic loads.
5. What is the AWS billing dashboard? How can organizations manage and optimize cloud costs?
6. Design a cost-effective and scalable architecture using IAM, ELB, and Auto Scaling.
